Git

#### CAREER OBJECTIVE

Experienced Python developer with extensive Django experience looking to continue to develop my skill set on the back-end at a company driven to addressing the climate crisis.

#### **WORK EXPERIENCE**

## Python Developer

DoorDash / September 2018 - current / Chicago IL

- Worked on building new Angular components for the customerfacing web app which improved the time on page for the average user by 2 minutes
- Worked within an agile team and helped prioritize and scope feature requests to ensure that the biggest impact features were worked on first
- Built extensive test coverage for all new features which reduced the number of customer complaints by 7%

## Python Developer

Knewton / April 2016 - September 2018 / Pittsburgh PA

- Worked alongside another developer to implement RESTful APIs in Django that enabled our internal analytics team to increase reporting speed by 24%
- Using Selenium built out a unit testing infrastructure for a client web application that reduced the number of bugs reported by the client by 11% month over month

#### **PROJECTS**

## **Cryptocurrency Price Tracker**

Creator

- Incorporated API calls to several applications and stored data efficiently in in our PostgreSQL backend
  - Utilized D3.js to allow users to dynamically visualize price movements over time periods of their choosing
